

EDSO IN NUMBERS

EDSO for Smart Grids (EDSO) gathers leading European distribution system operators (DSOs) for electricity, cooperating to ensure the reliability of Europe's electricity supply for consumers and enabling their active participation in our energy system. How? By bringing smart grids from vision to reality.

EDSO is the key interface between Europe's DSOs and the European institutions, promoting the development and large-scale testing of smart grid models and technologies in real-life situations, new market designs.
